

## BIENVENUE A L'ILE D'ORLEANS

**Le Moulin de Saint-Laurent** dates back to the French regime. It was originally a water mill used to grind grains into flour for the residents living on the south side of the Island.

In 1963, Mr. and Mrs Van Veen, of Dutch origin, purchased the mill and turned it into its second vocation: fine cuisine. Finally, in 1986, a group of islanders purchased this well-known restaurant. You are now invited to dine under this ancestral roof.
